Its light and minimalist appearance gives it the wide possibility of adapting to any environment. We chose for this scene the chassis and the tread in black so that it complements 100% with the chosen table.

Standing out for the quality of its finishes, its chassis is made of zamak and its body in PA+PU.

This wheel integrates a central bearing system that allows smooth movement and precise turning.

"Black is always elegant. It is the most complete color in the world, made up of all the colors on the palette."
Ricardo Tisci.

UNIVERSITY
大学一角

BORED EYE, UK

Liam de la Bedoyere graduated in Product Design at Bournemouth University in 2012. Based in Essex, UK, the Bored Eye design studio was founded in 2021. During the time after graduating and starting Bored Eye, Liam won various design awards during his career and showcased his work at the London Design Museum. Liam focuses on creating products that are anything but boring by combining function with style and imagination. Fun fact an anagram of Bedoyere - Bored Eye

When designing, what superpower would you like to have?

The superpower to multiply me would be helpful. I could work on multiple projects simultaneously and still take the dog for a walk.

What if you had to design an object to put wheels what would it be? I would design wheels on plant pots. I could just wheel them around the office to move my plants into the best light throughout the day.

If you could go to dinner with a designer, who would you go with? I would be really fascinated to have dinner with James Melia. I think he has a fascinating background in design and has built up a solid design agency. I would walk away from that dinner with a smile and valuable advice.

In what influential period of design would you like to be born? I would want to be born for my favourite influential period of design which is always the next one.

What is your favorite conversation topic?

I like sharing the latest ideas I want to work on. I drive my wife mad.

Would you prefer to travel to the future or to the past? I pick the future. The past is an available resource. You can always look up or find information on past events. But the future is only what we can imagine/predict.

What is the last book you have read? Immune: A journey into the mysterious system that keeps you alive. by Philipp Dettmer. From the guys who produce the youtube channel 'Kurzgesagt - In a Nutshell'. I love learning, especially when presented beautifully and simply.

What do you value most in the design of a furniture wheel?

Too not move when locked into position.

Can you tell an anecdote about any of your projects? During my degree studies, I was doing my work experience for a gift company. I would sneak my name or initials into every project's product tooling, packaging and marketing material. I wanted to see how many times I could do it before getting caught. I was never caught.

Do you have any favorite material to work with? At the moment, I am really into woods and metals. Getting my head around and experimenting with sustainability limitations in these material areas.

What is the best memory of your childhood? Nintendo 64. I think Nintendo has had a lot of influence on my life and design style.

What is the rarest object in your room? Anglepoise Original 1227 Desk lamp and a mint condition red Game boy.

What could we find in your garbage basket? Banana skins, I constantly snack on a lot of fruit and other (healthy-ish) nibbles while I work.

Which of your designs would you choose to survive a zombie attack? Nothing immediately comes to mind that would be useful, but if I had to choose, I would go with my Nest Lamp. The extra long cable would probably come in handy, and having a spare light to travel around with couldn't hurt my survival chances.

What do you currently think of your first design? I can't quite remember what my first design ever was. The first one to get popular was Emergency Moustache. All that comes to mind on that is a cringing feeling. You can still buy it on Amazon if anyone wants a pack.

If you were to write a book, what name would you give it? Everything sings.

Spot Pots - move your plant pots to a sunnier spot.

@robbycasters recently interviewed Liam de la Bedoyere, owner of Bored eye. One of their questions was, What if you had to design an object to put wheels on? What would it be?

After the interview, we decided to visualise this idea.

曾获多个设计奖项、其设计作品曾在伦敦设计博物馆展示的利亚姆于2021年毕业于伯恩茅斯大学产品设计专业，并于2021年在英国埃塞克斯郡成立了自己的设计工作室：Bored Eye。将个人风格、想象力与实际功能完美结合，利亚姆总能创造出有趣实用的产品。

在设计的时候，你希望自己能拥有怎样的超能力呢？
分身术的超能力，我可以同时进行几个项目，而且还有时间去遛狗。

如果像美剧《行尸走肉》的时代来临了，你会选择自己的哪一款作品幸存呢？
一时间我也选不出一款有用的作品，但如果非得选的话，我会选Nest Lamp的作品，那是一盏灯，超长的电缆可能会派上用场，而且随身带着备用灯不会降低我的生存机率。

如果你有幸能和一位梦寐以求的设计师共享晚餐，你会选择谁呢？
我想和James Melia共享晚餐。设计方面他有着迷人的背景，而且他建立了一个稳定的设计机构。相信结束晚餐时我一定会带着微笑和宝贵的建议离开。

如果能进行时空穿梭，你是想去未来还是想回到过去？
未来。过去是已知的，通过查找信息你能知道过去发生过的事，然而未来我们只能去想象、只能去预测。

你想出生在哪个对设计有影响的年代？
为自己喜爱的时期而生，而这喜爱的时期总在下一期。

说说你设计项目中一件比较印象深刻的事情吧
攻读学位期间，我在一家礼品公司工作，我会偷偷地把我的名字或者我名字的缩写留在每个项目的产品工具、产品包装和营销资料里，我想知道多久会被抓，结果我从来没被抓过。

如果你要写一本书，那这本书的书名是什么呢？
《万物高歌》。

设计时你最喜欢用什么材料？
目前，我最喜欢用木材和金属材料。我可以在这些物料领域里不断思考、不断尝试可持续材料的界限。

你最近读过哪本书？

Philipp Dettmer写的《Immune: A journey into the mysterious system that keeps you alive》。
作者是youtube频道《Kurzgesagt - In a Nutshell》制作人。我爱学习，特别是展现美和简约的一切。

我们能够在你的垃圾篓里面找到什么？

香蕉皮，我工作时经常吃水果和其他（健康的）零食。

你童年最美好的回忆是什么呢？

任天堂64。任天堂对我的生活和设计风格产生了巨大的影响。

你房间里最奇怪的东西是什么？

Anglepoise原创1227台灯和一部保存得很好的红色Game boy。

现在你怎么看自己的第一件设计呢？

我不太记得我的第一个设计了。第一个流行的是Emergency Moustache的假胡须，这产品总给人一种畏畏缩缩的感觉，如果有人需要，现在在亚马逊依然能买到。

你最喜欢谈什么话题？

我喜欢分享自己最新的想法，而这几乎把我的妻子逼疯。

在家具脚轮设计方面，你最重视什么？

刹车启动后脚轮不能移动。

如果你要设计一个带脚轮的家具，你会设计什么呢？

带脚轮的花盆。这样我就可以很轻松方便地把办公室的植被移到阳光充足的地方了。
